ARCO INC. AND MAXIMUS TECHNOLOGY SIGN GLOBAL DISTRIBUTION AGREEMENT

MAHWAH, NJ – MAY 1, 2014 - ARCO Inc., a specialty distributor of memory solutions, today announced the signing of a global distribution agreement with Maximus Technology, a manufacturer of advanced flash storage devices. Under the agreement, ARCO's customers throughout North America, Europe and Asia Pacific now have access to Maximus Technology's complete portfolio of military, industrial, enterprise and consumer solid state drive products.

"Total customer satisfaction is the number one goal of all ARCO employees, and we look to partner with companies that share our fundamental values, especially when it comes to a commitment to providing superior product support," said Rick Kapoor, president of ARCO Inc. "Maximus Technology is one of the few manufacturers able to provide NAND SLC flash products in one single disk with a capacity over 512GB. Their proprietary technologies provide excellent reliability and performance with devices for the most demanding applications."

Maximus Technology's product portfolio includes 2.5" SATAII SSDs with a Secure Erase function and capacity range from 16GB~1024GB on MLC flash, and 16GB~640GB on SLC flash. The Secure Erase speed can reach 2~3GB per second, meaning that all data in a 64GB disk can be erased totally within 20 seconds, with high performance and stability to meet advanced industrial and military applications. Maximus 2.5" Enterprise SSDs can be adapted to applications such as Bank Servers, Panel PC, Video Recording, Enterprise Servers, Workstations, Surveillance, RAID, and High-end Desktops.
