

Procurement Services

ARCOTEK has supported the electronics industry for 25+ years with a comprehensive portfolio of products and services based on our customer's specific requirements. Our international procurement team is structured to provide cost-effective procurement solutions for a wide variety of products including, but not limited to, electronic components, assemblies, batteries, industrial equipment and more.

ARCOTEK's global footprint with local and representative locations in the USA, Europe and ASIA ensures access to real time customer product support at the regional level.

All products are sourced directly from the manufacturer or through authorized sources with traceability to the factory and a 1 year product warranty for form, fit and function, unless otherwise specified.

ARCOTEK's goal is to be an indispensable extension of your procurement team, delivering the highest quality products and services, combining procurement and logistics management that complements your always evolving supply chain needs.

Purchasing - JIT Production Delivery - Inventory Management - Alternate Sourcing

Semiconductor - IC

- ASIC
- Clocks & Timers
- Communication
- Linear
- Memory
- Opto-Electronics
- Peripheral
- Power
- Power Management
- Processors
- Programmable Logic
- RF/MW
- Sensors
- Standard Logic
-

Semiconductor - Discrete

- Diodes
- Opto Discrete
- Power Discrete
- Transistors

Interconnect

- Connectors
- Power Entry
- Wire Management

Passives

- Batteries
- Capacitors
- Circuit Protection Frequency Controls
- Magnetics
- Magnetics - Inductors
- Magnetics - Transformers
- Resistors

Electro-Mechanical

- Encoders (Mechanical)
- Power Supplies
- Relays & I/O Modules
- Switches
- Thermal Management

Industrial Equipment

Equipment Sub-Assemblies

Embedded Computing

- Board Level Computing Displays
- Networking
- System Level Computing

Computer Products

- Peripherals.

Storage

Automation Products

- PLC's (Programmable Logic Controllers)
- HMI - Human Machine Interface
- Operator Displays
- CNC / Drives / Motors

DCS (Distributed Control Systems) Vision / Cameras

and many other products....
